PRAISE FOR BEST PRACTICES IN TALENT MANAGEMENT

"Many times when one reads about best practices from other organizations, the writing misses a critical and necessary foundation required for the content to be meaningful and relevant. In this book, Carter and Goldsmith bring a valuable contribution and that is to ask their readers to step back and consider their own context first and then determine how any of these outstanding talent management actions can make a difference in their particular organization. By culling for the principles behind the choices made, the stories revealed in these outstanding cases, the reader gains insight and practical advice."

-Teresa Roche, vice president and chief learning officer
Agilent Technologies

"This century, talent management will contribute to shareholder value creation more than any other organizational discipline. However, it remains an elusive concept. This book brings value to any CEO or HR leader by providing specific examples of effective talent management."

-Geoff Smart, CEO of ghSMART, and co-author of the
New York Times bestseller *Who: The A Method for Hiring*.

"Good story-telling is part art and part science. Louis Carter knows that and he shows this knowledge by his ability to gather an array of critical stories about organizations who have heeded the wake-up call to take action in the critical arena of talent management. My hat is off to the Best Practice Institute—this book lives up to its name!"

-Beverly Kaye, Founder/CEO: Career Systems International,
co-author, *Love 'Em or Lose 'Em: Getting Good People to Stay*

"As a long-standing business philosopher, I look for depth, foundations, root causes, and lasting answers; for that, facts, information, experiences and testing—and a solid data base—are essential. The compendium I needed I found here—and so will you!"

-Peter Koestenbaum
